Annual Environmental Audit Report and Renewal Permit Approved

PLEASE NOTE: ALL GRAPHICS HAVE BEEN REMOVED FOR SENS PURPOSES. PLEASE REFER TO TAWANA WEBSITE FOR THE COMPLETE ANNOUNCEMENT.

Tawana Resources NL ('Tawana' or 'the Company') is pleased to announce that the Environmental Protection Agency (EPA) of Liberia has approved the Annual Environmental Audit Report for the southern licence (MEL 1223/14) while also granting a renewal permit for the northern exploration licence (MEL 12029). Both licences constitute the Company's 100%-owned Mofe Creek project (Project).

EPA approval was granted following an independent audit of the Company's current operational activities relating to exploration activities being performed over MEL 1223/14 and MEL 12029. Tawana's exploration program was deemed to be compliant in relation to the requirements of the EPA permit issuance, which ensures adherence to impact prevention or mitigation measures, as originally submitted by Tawana for EPA approval.

Executive Chairman and Chief Executive Officer, Mr Wayne Richards said "Securing the permit renewal and approval of the annual audit report is necessary for the advancement of operations at Mofe Creek and is critical to our commitment to the Project's development. This latest approval from the EPA represents another important step forward in the overall environmental permitting process."
