Harmony guides 10% increase in quarter on quarter gold production

Johannesburg: Monday, 17 October 2016. Harmony Gold Mining Company Limited ("Harmony" and/or "the Company") advises that gold production in the September 2016 quarter was approximately 10% higher than the June 2016 quarter.

Harmony continued to benefit from its currency and gold hedge, which - in addition to higher production - aided strong cash flows. Underground grade at above 5g/t was maintained.

A production report for the quarter ended 30 September 2016 will be published on 10 November 2016.
