

Investor Relations

Helping you make the most of your IR responsibilities

What are your IR responsibilities?

For the majority of investors a company's website is the first port of call for investor related information. It is accepted good business practice for companies to host a dedicated IR page with current investor-relevant content such as the company's share price and up-to-date Stock Exchange News (SENS) items. Sharenet has been providing this service to established JSE listed businesses for many years.

Why use our IR service?

- Accurate and reliable data
- Up to 5 years of archived SENS announcements
- Effective and efficient implementation and management
- Customer focussed product design

Our IR service helps you communicate with your investors in a relevant, professional and familiar way.

Here's what our clients have to say:

“ A simple, easy-to-implement, all-in-one, cost effective solution that helps our company meet its IR responsibilities, and reassures investors by way of open and detailed communication. ”

Our clients include:

Sharenet IR Solution
